Tenders for ferry service jetties issued

Ashley D'Mello | TNN

Mumbai: After years of talk, there is some cause for cheer for water transport on the eastern coast with the Maharashtra State Road Development Corporation (MSRDC) pushing ahead with plans for passenger and roll-on/roll-off ferry service to be ready by 2014.

MSRDC officials said that the initial project will mean passenger and roll-on/roll off transport ferries plying from Ferry Wharf to Mandwa and also to Nerul. Both trips will take approximately 25 minutes, the officials said.

The ferries will be a boon to city residents and it will cut off more than 90 minutes from the usual travel time by road.

"Initially we will build jetties at Ferry Wharf, Mandwa and Nerul and later expand the route as the passenger and car traffic goes up. The passengers will have to pay Rs 100 per person one way and the fare for cars will be from Rs 280 to 300," the official said.

"Tenders for building the terminals have been floated and we expect work to commence in June and be finished in 18 months. The project will cost a total of Rs 475 crores,"

MSRDC officials said there would be separate ferries for vehicles and passengers. The cost of building a modern terminal facility at Ferry Wharf and Nerul is estimated to cost Rs 209 crores while the construction of a terminal at Mandwa would cost Rs 68 crores. There will be an elevated road from Ferry Wharf to P D'Mello Road and the eastern freeway at Orange Gate will cost Rs 79 crores.

KF cuts summer specials by 50%

Chinmayi Shalya | TNN

Mumbai: Kingfisher Airlines (KFA) has cut down its operation by 50% at Mumbai airport this summer. According to the new schedule, the airline will be operating 24 flights out of Mumbai, instead of 50 in the summer schedule.

Hyderabad, Mumbai-Trivandrum etc," officials said. "Since passenger loads have decreased tremendously, the airline is finding it unfeasible to operate on these sectors," a senior airport official said.

Across India, the airline will operate 120 daily flights instead of over 300 flights it operated last year. Kingfisher will use 20 aircraft out of its fleet of 64, to operate the summer schedule. On Wednesday, the airline issued a statement stating that it has begun the 2012 summer schedule operations. However, the current schedule is part of a "holding plan" till re-capitalization and return to full utilization of the aircraft fleet. The statement comes a day after Kingfisher stopped operations from Mumbai and Delhi to Lucknow and Patna. "The move was expected as the airline has been cutting down on operations to tier II cities. It had already stopped operating direct flights like Mumbai-Jaipur, Mumbai-

"In Mumbai, only flyers who had booked 3 to 4 months in advance or through web portal schemes are the only ones flying on Kingfisher. The airline will have to stick to its schedule if it has to win passenger confidence," he added. Summer holidays is a time when most airlines capitalize on the passenger rush. "Kingfisher has only ruined its chances further by reducing operations drastically from Mumbai," an airport official said.

"Since we could resume operations after getting re-capitalized, most employees have been asked to stay home," the airline's statement said. The company added that it is waiting for various decisions on FDI policy and working capital funding. "All of these will have a major impact on the staffing decisions we will have to make," the statement said.
